How do I get people to sponsor me?

Once you have set up your fundraiser, make sure to share it on your social media channels with your friends, family, and colleagues. If you're comfortable, share your reasons for taking on the challenge, and any personal stories you might have.

Let them know how important this challenge is to you and how vital the money raised is to Breast Cancer Now.

Do you have any tips for increasing my fundraising?

If you're looking for ways to increase your fundraising, have a look at some of our ideas below, and see if any of these could work for you:

- 1. Personalise your Facebook Fundraiser page** - add any photos or videos of you doing your challenge, screenshots of your walks and any stories you might want to share. To thank your donors, you could post photos or stories about them personally too.
- 2. Self-donate to your page to kick-start your fundraising** - It shows your committed to your challenge & your donation of £5 or £10 might encourage others to at least match your amount!
- 3. Host a sweepstake** - Ask people to guess how many minutes it will take you to complete 100 miles of walking and the one with the closest guess could win a prize!
- 4. Share your page regularly** - Don't be afraid to keep sharing your page on your social media. Keep everyone updated with your progress, and remind everyone why this challenge is so important to you.
- 5. Match Giving** - Ask your employer about matched giving, they might be able to help you double your total.
- 6. Have fun with it** - This isn't just a challenge, it's also an opportunity to have fun and express yourself - when you post about your challenge, remember that enthusiasm is contagious!

How can I get friends and family involved

Your friends and family will love to see your progress throughout the challenge! Keep them updated with Facebook posts and pictures showing how far you have come.

One way to keep people interested could be take on your challenge wearing fancy dress. You could ask those who donate to choose one day's theme. One day you might be dressed as a pirate and the next you could be walking down the street as a well-known fictional character.

Stuck for what you will say in your first message?

If you're not sure what to say, here is a suggestion to get you started. The most important thing is to tell people what you're up to, why the challenge is important to you and what you're raising money for:

“This October, I am taking part in the Walk 100 Miles challenge for Breast Cancer Awareness month. I will be raising money for Breast Cancer Now, the research and support charity.

Why? Because 1 woman is diagnosed breast cancer every 10 minutes in the UK. Now more than ever, we must do all we can to support patients and their families through whatever they're facing. But Breast Cancer Now can't do it alone. The charity's nurses, scientists, and the hundreds of thousands of families affected by breast cancer, urgently need support.

Thank you for your donation, which will help Breast Cancer Now to fund world-class research and life-changing support for everyone affected by breast cancer, now and in the future.”

What is the best way of keeping track of my walks?

We have a distance tracker where you can keep track of your miles throughout the month: [Challenge Tracker](#)

Do I need to prove I have completed the 100 miles?

We trust you, and we won't be asking you to prove that you've done your 100 miles. What we do suggest though is that you share photos and videos of your walks on your fundraising page and the Facebook group. We'd love to see them!

What if I am not able to finish my challenge?

Although the goal is to walk 100 miles throughout October, we understand that this is not feasible for everyone. This is a personal challenge and so if you need to change the distance or timescale of your challenge, that's completely fine. Choose a distance that is a challenge for yourself, and we will be there to support you the whole way through. Your health and safety are the most important thing to us, so don't push yourself too hard.
